TH - STUDIO ARCHITECTS INTRODUCTION

Activity: Architectural design: conception plans, study plans, visualisation, permission and construction plans
General design: full design service with cooperation of civil, structural, electrical, etc. engineer offices,
Architectural consultancy, design coordination, designer site control

History: Our line is architectural design since 1996, partly cooperating with other architectural offices. The Tér-Háló Stúdió Bt was founded in 2001, which is the informal ancestor of the present studio. The design activity of the Studio is comprehensive from the family houses through the residential buildings, office- and commercial buildings to the large logistic parks.

Principal: György Hidasi
MSc architect (1995-), leader architect (2004-)

Architects: Dániel Csöndes
Ágoston Drippéy
Gabriella György
Emese Kölcsey
Eszter Polai
Cecília Tóth

Departmental design is done by subcontracting design offices.
